

Fleece Recovery Blankets

We need help creating soft, fleece recovery blankets for pets after their spay/neuter surgery. We need three sizes. Here are the instructions:

SMALL 30 inches by 30 inches:

Select any mostly mustard/yellow 60 inch wide fleece material. It must be fleece. It will take a yard of material. Make sure the edges are together. Cut it into 30 inch long pieces. Open up and cut again at the fold. You have just created two 30 inch by 30 inch fleece blanket.

MEDIUM - 30 inches by 60 inches

Select any mostly green 60" wide fleece material. It must be fleece. It will take a yard of material. Make sure the edges are together. Cut it into 30 inch long pieces. You have just created a 30 inch by 30" fleece blanket.

Large - 30 inches by 70 inches

Select any mostly lavender/purple 60 inch wide fleece material. It must be fleece. It will take two yards of material. Make sure the edges are together. Cut it into 70 inch long pieces. Open up and cut again at the fold. You have just created a 30 inch by 70 inch fleece blanket.
