

UNITED **4** ANIMALS

U4A is committed to improving the lives of our clients and their animals by offering free support services

Fence Build

Our fence build programs provide free fences, doghouses, tarps, and straw to improve the lives of dogs living tethered or chained.

Spay/Neuter Services

Our spay and neuter program provides free spay/neuter services, along with vaccinations and medical needs to ensure the health of dogs and cats.

Microchipping

Our microchipping programs provides free microchipping for clients in need.

Outreach & Wellness

Our Outreach and Wellness services provides clients with pet care supplies, veterinary care, and boarding in emergency situations.

UNITED ⁴ ANIMALS

United For Animals provides services, supplies, information and support to people and pets in underserved areas.

Many under-served neighborhoods lack access to basic pet care resources. United For Animals works to fill that gap. By providing services, supplies, information and support, we honor people's love for their pets. We proactively reach out to the community to build trusting relationships with families and make connections to keep pets happy and healthy. We believe that a lack of financial means does not equate to a lack of love for a pet, and we seek to spread this principle through a philosophy of understanding and non-judgment. We will also be providing vaccinations, spay/neuter services, microchipping, and more.

We will be working with clients in Charlotte to ensure that no dog lives a life tethered inhumanely by providing free fence builds starting in February of 2020.

We hope you'll join us in this new endeavor!
